

AIR RANGER

Low Pressure 1" Electronic Air Cleaner

ECONOMICAL OPERATION

- Low static pressure drop lets blower run efficiently.
- Low power consumption.

WARRANTY

- Backed by a Limited Lifetime Warranty.

EFFICIENT

- 97% efficient at .3 microns.
- Efficiency increases as the media fibers load.

REMOVES ODORS

- Patented activated-carbon center screen with C3™ technology is effective in removing cigarette smoke, pollen, dust, odors, and other contaminants.

EASY MAINTENANCE

- No washing of components required.
- The disposable fiber media pads require only a few minutes to change.
- Media pads are generally changed every 3 to 4 months, depending on household conditions such as the presence of pets and/or smokers.

PAN TREATMENT

Protect Your Cooling System

DYNAMIC TIME-RELEASE CONDENSATE DRAIN PAN TREATMENTS

- Use state-of-the-art, water-activated, time-release polymer technology
- The product may be used safely in air-conditioner and refrigerator drain pans, dehumidifier water tanks, or any other non-potable water retention area
- The honeycombed solid package remains intact until it becomes activated by moisture . . . then it deactivates again, providing dependable, sustained time-release protection for just pennies a day
- The system contains a corrosion inhibitor and adds a light, pleasant scent to the air as it works
- Helps prevent overflows from clogged air-conditioner drain pans due to the formation of slime, which can cause expensive damage to ceilings and/or other property.
- Contaminants found in drain pans can cause foul-smelling odors and air quality problems.
- Retained water can cause corrosion and premature failure of metal drain pans.
